Hurley Annual Trauma Center Golf Classic Flint Golf Club **September 14, 2015**

This year's Trauma Center Golf Classic Ambassador: Jeff Umphrey

Jeff and Kathryn Umphrey of Clio started volunteering in Hurley Medical Center's Burn Unit, the only one in the region comprised of Genesee, Lapeer and Shiawassee Counties, in January, 2015. The couple wanted to give back and provide support to victims, because nearly 30 years ago, Hurley's Burn Unit saved Jeff's life after a nearly fatal, horrific accident.

On December 10, 1985, 34-year-old Jeff was working as a body shop mechanic when a gasoline spill would forever change his life. While taking a gas tank out of a car, gas spilled on Jeff and a nearby light bulb. The gas ignited and Jeff caught on fire. After being rushed to Hurley, doctors discovered he suffered third degree burns to 54% of his body, on his chest, abdomen, legs, left arm and hand. Jeff spent 6 weeks at Hurley, 4 of those weeks in a medically induced coma, with continued rehabilitation for several more months.

"I had a truly amazing experience at Hurley. I received exceptional care that changed my life. Today, my wife and I volunteer in the very Burn Unit that saved my life. I feel truly blessed Hurley Medical Center was here. Without Hurley, I don't believe I'd be alive," adds Umphrey.

"Hurley Medical Center is proud to be the premier public teaching hospital and the region's only Level I Adult and Level II Pediatric Trauma Center in the region, caring for critically ill adults and children, around the clock. Hurley strives to continuously provide the best possible state of the art technology and outcomes for our patients. It is proof of our ongoing commitment to provide our community access to the latest advancements in trauma care, 24/7. The funds raised at the Hurley Trauma Golf Classic will allow us to continue caring for and treating patients in the most exceptional patient and family centered care possible," adds Michael McCann, DO, FACOS, FACS, Chief of Trauma Surgery and Critical Care at Hurley Medical Center.

On Monday, September 14, 2015, the Hurley Foundation will hold its 31st Annual Trauma Center Golf Classic at the Flint Golf Club to benefit Hurley's Trauma Center and Burn Unit at Hurley Medical Center – the region's only Level I Trauma Center. This year, Jeff will be the Trauma Ambassador and guest of honor during the evening portion of the benefit. For ticket, donation and sponsorship information please contact Hope Ponsart-Hansen at the Hurley Foundation at 810.262.9399 or hponsar1@hurleymc.com.

Hurley's Trauma Center admits over 1,500 patients annually making it one of the highest volume trauma centers in the state. Hurley serves 22 counties, receiving up to 300 transfers from other hospitals each year.

Congratulations!

Dr. Elna Saah has been selected to Participate in a Prestigious National NIH-Supported Research Mentorship Program

Congrats to Dr. Elna Saah who has been selected to participate in a prestigious national NIH-supported research mentorship program related to hemoglobin and red blood cell disorders!

From the program (<http://www.gru.edu/mcg/pride/>):
The PRIDE (Programs to Increase Diversity Among Individuals Engaged) in Health-Related Research, program is a research career advancing training opportunity funded by the National Heart, Lung, and Blood Institute (NHLBI). Seven unique PRIDE Institutes

were recently funded across the United States. These mentored research programs address the difficulties experienced by junior investigators in establishing independent research programs and climbing the academic ranks.

The PRIDE-Functional and Translational Genomics of Blood Disorders program at Georgia Regents University (GRU-PRIDE) will focus on training young scientists in research related to hemoglobin and red blood cell diseases. Mentees will learn grant writing skills and hand-on bench research skills related to proteomics, molecular and cellular techniques.

We look forward to her continued work to advance the care of children with these hematologic disorders!

Congrats Dr. Saah!

New Patient Dining Room Service

"At Your Request Room Service Dining" by Sodexo is now providing patients with customized meal choices, available when they would like to dine.

The service will be available from 6:30AM to 6:30PM 7 days a week. The Restaurant style menu includes a wide variety of foods including made to order omelets, deli bar, pizza and grill favorites in addition to entrees, salads, vegetables and desserts. There will be a special menu for Pediatric patients. All items will be available for all meals. The Menu will also be available in Spanish and Arabic.

When patients are admitted, Nursing assesses whether the patient can pick up the phone to call in their food orders or if they will need assistance. Patients are categorized in EPIC as "Appropriate for Room Service", "Appropriate with Assist" or "Not Appropriate". All patients needing assistance will be visited by a Nutrition Services employee to help them place an order. Nutrition Services will also keep track of which patients have called at each meal. If they don't hear from the patient, they will call them for an order. EPIC EMR interfaces with the Nutrition Services Health Touch program, so diet orders cross over into Health touch from EPIC. Health touch system will screen diet selections so only foods that match the patient's diet order will be served. Allergy information is also indicated, along with preference. This information will be stored for future visits. Patients will call 27200 from in the Hospital or 810-262-7200 from outside of the hospital.

Food will be delivered within 45 minutes of that call. Family members can order meals for patients from any location such as home or office. Up to three meals can be ordered at a time.

Summer Special – CLASSES ARE FREE – plan to attend all 6 weeks!

- 6 weeks long
- Discover your smoking patterns
- Clarify your reasons for quitting
- Learn how to live tobacco-free
- Change your behaviors permanently
- Develop healthy lifestyle habits
- Create a personal quit plan
- Learn about addiction and how to break the cycle
- Learn about and minimize withdrawal symptoms
- Class is normally \$25, but as a special promotion, class is free through the summer months

CLASS OPTIONS

LOCATION #1
YMCA – Downtown Flint
411 E. 3rd Street
Flint, Michigan 48503

Hurley in the News ... April 16th - May 11th, 2015

MARCH ISAIAH STRUCK NAMED 2015 MICHIGAN CHAMPION

Hurley Children's Hospital is proud to announce 8 year old Isaiah Struck, a former Hurley pediatric patient, will serve as this year's Michigan Champion Ambassador for Children's Miracle Network Hospitals. He will represent all four CMN Hospitals in the State of Michigan. A press conference about his new role was held on Friday April 17th at the Courtyard by Marriott on Hill Road in Flint. In June, all state Champion ambassadors will travel to Washington D.C. to share their stories with a national audience.

A few years ago at his Bay City home, Isaiah suffered second and third-degree burns to his arms, legs and one hand after a backyard bonfire suddenly became uncontrollable. Doctors feared he would never walk again. Thanks to Isaiah's resilient spirit and life-saving care at Hurley, he recovered. CMN Hospitals funds provide the expensive compression garment pants and gloves kids like Isaiah depend on to reduce scarring from burns.

MIDWIVES MAKE HEADLINES

Both the Flint Journal and ABC12 did feature length stories on the Midwifery Program at Hurley. They talked to families who recently had babies delivered by two of our Midwives, Lyric Walsh CNM and Joanna Kuklinsky, CNM. The Hurley Midwifery program was also included in a recent article in the Tri-County Times.

ATLANTIS CAFÉ

A group of Grand Blanc students from Cook Elementary raised nearly \$2,000 to benefit Children's Medical Network Hospitals at Hurley Medical Center. Twenty three first-graders from the school ran Atlantis Café. The students worked as cashiers, chefs and hosts to raise money. The story appeared in the Flint Journal and ABC12 as the "Good Kids" of the week. The group will appear on this year's CMNH Telethon Sunday, June 7th on ABC12.

MARCH FOR BABIES

Hurley Medical center was proud to sponsor the March of Dimes Walk for Babies at Bicentennial Park in Grand Blanc in April. Hundreds came out to raise money to support healthy outcomes for infants. The Flint Journal, ABC12 and NBC25 covered the event.

NO FAULT INSURANCE VOTE

The Flint Journal interviewed Hurley President & CEO Melany Gavulic, RN, MBA, and Cass Wisniewski, CPA, MBA, Senior VP & Chief Financial Officer about the devastating impact a proposed reform to Michigan's No Fault Insurance would have on our hospital, the only one in the region with a Level 1 Trauma & Level II Pediatric Trauma Center. The reform drastically reduces the amount of reimbursements Hurley would get from auto accident claims, possibly up to 18 million dollars. This could have an impact on many vital services for both children and adults. Go to http://www.mha.org/advocacy/action_center.htm and urge your local lawmaker to stop this legislation.

THIS IS HOME PROMO ON ABC12

ABC12's Dawn Jones has a special connection to Hurley. Her son Christian was born at 27 weeks at Hurley. He's a teenager now, but she still considers Hurley part of her home. That's why she chose Hurley as the back drop for part of the station's "This is Home" campaign. You can see the spot run at various times throughout the day and night. Hurley also makes an appearance in Matt Franklin's "This is Home" promotional spot.

KIRK GIBSON DIAGNOSED WITH PARKINSON'S DISEASE

ABC12 turned to Hurley Medical Center looking for answers about what a diagnosis of Parkinson's Disease means for former Tiger Kirk Gibson. Board Certified Neurologist Sunita Tummala, MD spoke LIVE on ABC12 News First at Four.

HURLEY IN TWO NATIONAL ONLINE CONTESTS

ABC12 interviewed Women and Children's Administrator, Mattie Pearson, MSN, RN and Alicia Lewis, a miracle mom about Hurley Competing in two national online contests.

BATTLE OF THE BRAVE:

Vote through 11:59pm on 5/31/2015

Vote ONCE every 24 hours for Hurley Miracle Child and former preemie, Kaidyn Lewis on Speedway's Facebook page. SHARE SHARE SHARE! www.facebook.com/speedwaystores
**Top Prize \$20,000

WHITE CLOUD VIDEO CONTEST:

Vote 5/1/2015-6/30/2015

In the Real Comfort, Real Kids Video sponsored by White Cloud, you can vote on a video all about how Hurley Children's Hospital is bringing comfort to kids. If you have a White Cloud UPC code, your vote will count as TEN votes each day you vote. There will also be giveaways for voters! You can vote on White Cloud's Facebook page daily and SHARE SHARE SHARE: www.Facebook.com/mywhitecloud

**THE FIRST THREE PLACES WIN \$30,000!!!

Produced by our marketing department, our video stars three of Hurley's Miracle Cancer pediatric survivors. It is a humorous take on sharing a room while in the hospital. Special thanks to our student video crew from Mott Community College.

NURSES WEEK

ABC12, NBC25, and WNEM TV5 came out for our Nurses Week Celebration kick off on Monday May 4th. The West Lobby was full of fun, prizes, & games, all to show appreciation for our nursing staff. CARS 108 and CK 105.5 also broadcast live that morning. The Flint Journal/mlive.com also covered this annual event.

NEW HURLEY FOUNDATION BOARD MEMBERS

The Hurley Foundation, the fundraising arm for Hurley Medical Center, is proud to welcome four new board members that will serve until 2019. The Flint Journal wrote up a story featuring Bryn Mickle, Editor of The Flint Journal, Lindsay Clark, Miracle Mom, Kip Darcy, Vice President for Marketing, Communications & Enrollment at Kettering University, and Glenn Wilson, CEO & President of Communities First, Inc.

HURLEY CHILDREN'S CENTER UPDATE

The Flint Journal recently featured an update on the construction of Hurley Children's Center, located on the second floor of the Flint Farmers' Market. The \$2 million dollar project will move Hurley's Pediatric Residency Clinic and their Pediatric Specialty Clinic to the market. The clinic is expected to open this summer.

Construction Updates:

Construction Continues on Hurley Children’s Center at Farmers Market

FLINT – Construction is underway on the new estimated \$2 million dollar Hurley Children’s Center project, located on the second floor of the Flint Farmers’ Market. The new build totals 10,300 square feet, encompassing 12 pediatric specialty clinics, continuity/resident primary care clinic, 24 exam rooms, lab, and an innovative resident/ preceptor teaching area. Future plans also include having prescriptions delivered to the clinic from our H-Care pharmacy located at Hurley. The project is a collaborative partnership between Hurley Children’s Hospital, The Mott Foundation, and the Flint Farmers’ Market.

The clinic’s design will be patient and family-centered, incorporating an open layout utilizing onstage (patient care areas) and off-stage (physician/ provider areas) philosophies, so that team-based care is best accomplished.

The Hurley Children’s Clinic offers pediatric medical services to the City of Flint, Genesee County, and a 15-county region in Michigan. Hurley’s Wellness Hub located on the main floor of the Farmers’ Market already offers weekly information, classes, healthy cooking demos and much more.

“Placing a pediatric clinic in a Farmer’s Market is an innovative concept, opening up opportunities to partner with patients and families to live healthier lives and build a healthier community. We’ll be able to give prescriptions to families to buy fruits and vegetables, and they can create healthy family meals by going downstairs and filling that script. We don’t know of any other medical office inside a farmers market where this is happening,” adds Mona Hanna- Attisha, MD, MPH, Director, Hurley Pediatric Residency Program.

“Hurley is leveraging its role as the premier public healthcare provider with the Farmer’s Market role in providing, and educating the community with, affordable and healthy food. We are so pleased to support this vital project. It’s a win-win situation for the entire greater Genesee County community, and will lead to not only greater health and wellness education but improved outcomes from a public health perspective,” says Melany Gavulic, RN, MBA, President and Chief Executive Officer, Hurley Medical Center.

Visiting families will be able to use their Double Up Food Bucks at the Farmer’s Market. Double Up provides Supplemental Nutrition Assistance Program (SNAP) beneficiaries with a one-to-one match to purchase healthy, locally grown fruits and vegetables. The Farmer’s Market anticipates 1,000,000 visitors this year. While many of our patients do not make regular use of the market, we hope that exposure to it will help to change lifestyles and health outcomes. Construction is expected to be completed this Summer.

Outpatient Clinic

The newly renovated space (phase I) in the Outpatient clinic area included new resident work space, waiting room for clinic patients, outpatient lab, DME and pharmacy. Phase II will begin May 11, 2015 and will include a waiting room for all other outpatients coming in for outpatient services such as lab, x-ray etc. There will be a check in desk with greeter service to help way finding for customers, making sure that they get to their correct destination. Customers will be able to check in and get registered prior to going to their appointment. Parking is adjacent to the entrance for convenience. This is the 2nd entrance to the hospital.

Hurley’s Trauma Center admits over 1,500 patients annually making it one of the highest volume trauma centers in the state. Hurley serves 22 counties, receiving up to 300 transfers from other hospitals each year.

Research Updates: ProTECT Trial

This trial was conducted through the NIH-funded Neurological Emergencies Treatment Trials Network, NETT. Hurley Medical Center enrolled 1 patients while the trial was open at our site. Please visit <http://www.nejm.org/doi/full/10.1056/NEJMoa1404304#t=articleTop> for the published results of the ProTECT trial.

Unfortunately, the results were not what we had hoped. Progesterone was found to offer no significant benefit in the treatment of traumatic brain injury over placebo. While the results are disappointing, this clinical trial represented the successful interdisciplinary cooperation of neurology and emergency medicine.

Congratulations and many thanks to all those who were involved!

Thank you,
Dr. Borgialli

Physicians – You are the Patient’s Experience!

THE VOICE OF THE PATIENT

Thanks to...

...“I really appreciate **Dr. Shetty**. He was just marvelous. His bedside manners were just wonderful, and he did a great job during consultation and coming to see me before surgery and following surgery. He just, I just really appreciate him, and he did a great job.”

...“The anesthesiologist and the team of doctors that worked with **Dr. Fernandez** in the surgical unit.

...“I would like to thank **Dr. Wiggins** for delivering my child and helping me through it and everything, and showing me how to push (with it being my first baby.) He did a great job and he was really caring. He came in and checked on us, so I really appreciate that.”

Hurley Foundation Welcomes New Board Members for 2016-2019

The Hurley Foundation, the fundraising arm for Hurley Medical Center, is proud to welcome four new board Members that will serve from 2016 to 2019:

Lindsay Clark

Ms. Clark holds a Bachelor's Degree in Public Relations and Business Management from Western Michigan University and, for

the past ten years, has served as the Operational Manager for Terry Matlock School of Performing Arts in Flint. Ms. Clark is a wife and mother of three children. Her 3 year old son, Easton, is a Miracle Baby who spent 4 weeks in the Hurley NICU in 2011. She feels strongly that Hurley saved Easton's life and has spearheaded fundraising for Hurley in each of the last three years. During that time, "Team Easton Gives Back" has raised over \$90,000 to support the region's only Level III Neonatal Intensive Care Unit (NICU).

Cornelius H. (Kip) Darcy

Mr. Cornelius (Kip) Darcy became the Vice President for Marketing, Communications and Enrollment at Kettering University

in April 2012. Darcy directs all activities involving marketing, public relations, communications, admissions, financial aid and enrollment services for Kettering University. Mr. Darcy previously directed Admissions for both the Washington University School of Law and the University of California Hastings College of Law.

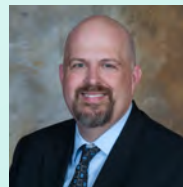

Mr. Darcy is a leader with a proven track record for creating successful business strategies and operational processes in various fields: technology, consumer products and higher education. Most recently, he managed field enablement and communications for Blue Coat Systems, Inc. where he developed a communications strategy and organization for a technology-focused 400+ member field team. He also spent several years with HP Software

where, among other programs, he was responsible for expanding technology initiatives to micro banking organizations in Africa.

Mr. Darcy holds both an MBA and a Master of Arts degree in International Affairs from Washington University in St. Louis. He is on the board of Salescraft.org.

"Hurley is such an amazing asset for the city of Flint and the state. It is an honor to serve on the Hurley Foundation Board and support families in mid-Michigan and beyond," said Darcy.

Bryn Mickle

Bryn Mickle serves as Editor of The Flint Journal. A Detroit native, he attended the University of Michigan in Ann Arbor and has

worked at newspapers in Michigan and Maryland. He returned to Michigan in 1999 as night police reporter for The Flint Journal, and in 2009 was named assistant editor. He was named to his current position in November, 2014, after serving as Interim Editor.

Mr. Mickle lives in Lapeer with his wife, Jeanne, and their two children, Riley, 11, and Rory, 8. He has a deep appreciation for the role of medicine in a family's life. His son, Riley, was diagnosed with Nephrotic Syndrome at age 2 and has been treated for the chronic kidney disease for 9 years. From the Emergency Room to the Intensive Care Unit, his family has experienced firsthand the vital role that hospitals serve for the chronically ill, and he wants to do everything in his power to help future children and families who find themselves in that situation.

"Hurley means so much to this community and countless families. To work together with the Foundation is such an honor and privilege," said Mickle.

Glenn Wilson

Glenn Wilson is the President/CEO of Communities First, Inc., a thriving nonprofit community development

corporation in Flint, Michigan.

Communities First, Inc. was founded in response to the great need that distressed communities face in regards to economic development and affordable housing. The organization has secured more than \$14 million in funding and provided jobs to more than 100 people in just four years.

Mr. Wilson currently serves on the Michigan Housing Council Finance and Development Committee, the Community and Economic Development Association of Michigan (CEDAM) Board of Directors, and the Mass Transportation Authority (MTA) Board. He is also the inaugural President of Genesee County Housing Partners, and is a member of the City of Flint Master Plan Housing Implementation Task Group. He serves on committees at the Flint Institute of Arts and Flint Institute of Music and has a special interest in increasing equity in the arts. All of this involvement is helping to shape the housing and community development industry in different ways at the city, county, and state level.

Mr. Wilson is passionate about community and economic development, rebuilding distressed areas and inspiring change in the lives of others. He believes in accountability and transparency and is committed to seeing transformation in the City of Flint.

"Working together with Hurley is vital to the transformation of the area, since Hurley not only serves our community, but is a vital part of the workforce in the city," said Wilson.

Congratulations to our 17th Annual MSU-Fame

Hurley Rehab Therapy Services is pleased to announce the **Grand Opening of Hurley Crowne Point Physical Therapy!**

Our newest physical therapy site is now open! Hurley Crowne Point Physical Therapy is located in the Crowne Point Endoscopy Center off of Hill Road.

Why choose Hurley Therapy Services?

1. Our team considers it an honor to care for our fellow co-workers and their families and friends.
2. We have 4 convenient locations with flexible appointment times between 7am and 7pm (depending on location):
 - West Flint Campus on Linden Rd
 - Inside Insight Fitness on S. Saginaw (former Hurley Health and Fitness)
 - Inside the Pierson Rd. YMCA
 - Crowne Point on Hill Rd

3. The 50% co-insurance is waived when you use Hurley therapy services.
4. Therapy graduates receive a FREE month membership to Insight Fitness or the YMCA (your choice) upon completion of your treatment.
5. We have the area's most comprehensive adult and pediatric physical, occupational and speech therapy programs and an award winning certified hand therapy program.

A prescription for therapy from your doctor and a quick call to our central scheduling office 262-2350 is all that it takes.
