

Hurley Cardiac Rehabilitation – New Location

We are excited to announce that Hurley Cardiac Rehabilitation has moved from its old location at Insight Fitness to its new location on Hurley’s Campus, on the ground level. The new space provides cardiac rehab patients a larger and more comfortable environment to receive high quality care from our nursing and exercise physiology staff.

The cardiac rehabilitation program consists of three phases.

PHASE 1	
Inpatient	A gradual progression of activity is offered to help patients return home quickly, while preparing them for the second phase.
PHASE 2	
Outpatient	Consists of an EKG monitored program, up to 36 sessions. This includes: Blood pressure monitoring; Monitored exercise; Nutrition counseling; Emotional support; and, Education about lifestyle changes to reduce risks of heart disease while strengthening the cardiovascular system.
PHASE 3	
Maintenance	A self-pay program for those individuals that complete Phase 2 and wish to continue to exercise in the monitored environment to improve their heart health.

The Cardiac Rehabilitation Facility serves patients who have suffered a heart attack, undergone certain heart procedures, have congestive heart failure and/or other specific heart diseases. Our staff collaborates continuously with the goal of improving quality of life and preventing future hospitalizations.

To begin Cardiac Rehabilitation, a referral from a doctor is required. The patient may call **810.262.2212** for assistance with obtaining a referral or scheduling an initial appointment. Hurley’s Cardiac Rehab program is open 9:00 am – 5:00 pm (Monday), and 9:00 am – 4:00 pm (Wednesday and Friday).

SAVE THE DATE!

5 years

Mohammad Tabbah MD

15 years

Frederick Armenti MD

20 years

Badar Ahmed MD

Khalid Ahmed MD

Ahmed Arif MD

Jamal Farhan MD

Jay Holmes MD

Michael Jaggi, DO

Khalil Katato MD

Aram Minasian MD

Mousa Mohamed MD

Bradford Murphy MD

Peter Stoyanoff MD

John Waters MD

Mark Wilkerson MD

25 years

Aftab Aftab MD

Qazi Azher MD

40 years

Dong Ohm MD

Hurley recognizes the dedication and commitment of our doctors. As a feature of the Physician Connection, Hurley will acknowledge five (5) year anniversaries each month.

Quality and Patient Safety

Providing Safe Transitions for our Patients – Order Reconciliation

Dr. Mercer

Physicians and Mid-Level Providers play a vital role in order reconciliation. Order reconciliation is fraught with the risk of error due to the incomplete or inaccurate communication of crucial patient information. Our team including **Dr. Mercer, Dr. Roebuck, and Dr. K. Ahmed** working on improving our order reconciliation for our patients. In the past 6 months (Oct to Mar) our data shows:

- 54% of the time we do not reconcile 100% of the prior to admission medications.
- 41% of the time we reconcile 100% of the medications within 24 hours.

Dr. Roebuck

Our goal is to reconcile all prior to admission medications within 24 hours of admission. If you need assistance with learning how order reconciliation works in Epic please contact a Scribe for one on one assistance by dialing **2-SCRB (27272)**. If you would like to join the improvement team please contact **Julia Moses x29272**.

Dr. K. Ahmed

Changes to Duration of Antimicrobial Therapy

by **Chelsea Bennett, Pharm.D.**

The new Joint Commission Medication Management standard addressing antimicrobial stewardship is in effect as of January 1, 2017. The purpose of this standard is to slow the emergence of antibiotic-resistant bacteria, detect resistant strains, preserve the efficacy of existing antibiotics, and prevent the spread of resistant infections.

As a result, the Hurley Antimicrobial Stewardship Committee is implementing changes to assure compliance with the new standards. One such change is the initiation of an automatic seven (7) day duration of therapy on all antimicrobials, including antibiotics, antifungals and antivirals. From this point forward, all antimicrobials ordered in EPIC will default to a seven (7) day length of therapy. Exceptions include a five (5) day duration of therapy on oseltamivir (Tamiflu) and azithromycin (Zithromax), and ten (10) day duration of therapy on oral vancomycin. Antiretroviral agents will be excluded.

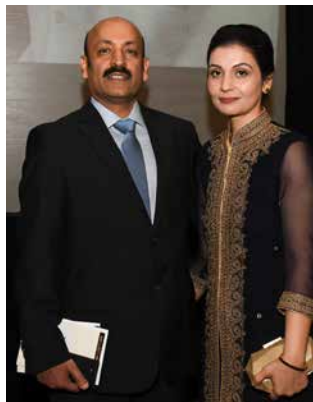

Prescribers will have the option to modify duration of therapy if clinically indicated. This measure was approved by the Hurley Medical Center Pharmacy and Therapeutics Committee in March, and then the Medical Executive Committee in April.

36th Hurley Foundation Benefit Ball

On March 4th, Hurley celebrated our Annual Benefit Ball and the “Motown” experience in Flint, at the Holiday Inn Gateway Centre.

Proceeds from this year’s Ball will support Hurley Medical Center’s continuing mission to provide superior senior care services with a human touch. Thanks to you, we can continue implementing vital measures that lift the spirits and combat the risk of decline that exists for seniors. With programs like the Care Transition Program, the Progressive Mobility Program and the Mobile Care Unit, we are stepping up to improve healthcare for this integral and deserving segment of our patient population.

This year’s Ball was sold out and over 400 guests enjoyed the finest in dining, dancing, entertainment and silent auction.

Voice OF THE PATIENT Physician, YOU are the Patient’s Experience!

Dr. Minasian

Dr. Pyatt

Dr. Punam
Sharman

Dr. Weber

Dr. Mattie
Scott-Phillips

“**Dr. Minasian** is an excellent doctor and takes great care of my many health issues.”

“**Dr. Pyatt** made childbirth a stress-free process! He was awesome! His positive attitude put me at ease...”

“Physician skill in replacement of my knee was excellent.”

“**Dr. Punam Sharman** is a very skilled doctor.”

“**Dr. Mattie Scott-Phillips** is excellent.”

“**Dr. Weber** in the emergency room was excellent; he was decisive and could clearly explain his plan of action and goals...”

MAY Birthdays

Dominic Borgialli DO
Michael Jaggi DO
Manila Mewada MD
Dong Ohm, MD
Mark Wilkerson MD

In Memoriam

In an effort to help preserve their memory and legacy, this section is dedicated in remembrance of those members of the Medical Staff who recently passed away.

If you have information of someone who should be included in this memoriam, please contact the Medical Staff Office at **810.262.9239**.
